PRESS RELEASE

Uniwax® , the West African leader of authentic wax printed fabrics now available in North America

African fabrics available at the African Clothing® Marketplace and Walmart® Marketplaces in the United States and Canada

Established in 1968 in Cote d'Ivoire (Ivory Coast), Uniwax® is a leading textile manufacturer specializing in wax cloth production. Their 100% cotton fabrics, known as "Wax Cote d'Ivoire," feature distinctive and colorful designs, allowing individuals to express their identity and cultural heritage. Uniwax® has a significant presence in the African fashion market and has played a role in connecting Africans from the diaspora to their motherland.

Uniwax® manufacturing process and Products availability with flexible payments

Uniwax manufactures wax products using a wax resist technique, originally from batik but now industrialized. Genuine African wax prints are known for having the same color on both sides due to a high-quality dyeing process. Uniwax® recently introduced digital printing, offering flexibility and precision. Products can be enhanced with metallic embellishments like gold or silver. The fabrics can be finished as traditional "Wax prints" with a light dye softening the contrast or transformed into "Wax blocks" with complementary colors. Additionally, Uniwax® produces "Fancy" products using Rotary Screen-Printing, allowing up to 6 colors to be directly printed on the fabric.

The Uniwax® products can be perfectly used for sewing, garment wear, fashion accessories, footwear, curtains, pillow covers, home decoration items and so much more. They are available at the African Clothing® Marketplace with the possibility to extend payment over time when checking out. Buy Now, Pay Later is available from both Afterpay and Affirm. While Afterpay as of now focuses only on Pay in 4 or monthly lending to customers, Affirm offers in addition interest-bearing monthly installments up to 24 months on carts up to \$30.000 to eligible customers.

So, Buyers, Retailers, Fashion Designers, Manufacturers, Entrepreneurs, Investors, here is a link to purchase Uniwax® products and explore retail, wholesale and brand collaborations opportunities: <https://www.africanclothing.us/product-category/uniwax/>

Increasing trade and investments with free trade agreements

Nowadays, trade plays a crucial role in Africa's economic development, fostering long-term, sustainable growth. Located in West Africa, Cote d'Ivoire is well known as a major global exporter of cocoa beans, coffee, and cashew nuts. Over the past five years, its growth rate has been one of the world's highest. Eligible under the African Growth & Opportunity Act (AGOA), Cote d'Ivoire aims to diversify its exports by focusing on the textiles, apparel, and footwear industry, capitalizing on the opportunities provided by AGOA. Uniwax® products are also available at Walmart Marketplaces in the United States and Canada and can be picked up at any Walmart Store in the United States and Canada when purchased online.

Here is the link for Walmart USA: <https://www.walmart.com/search?q=Uniwax&facet=brand:Uniwax>
